

Hello Friends

I would like to tell you a little about this album, it's Artist-Writers and Musicians. Tim Dinkins who does ten of the twelve songs on this album, is basically a song writer, having had songs recorded by some of the top artists in the Country field. But recording is not new to Tim, he has recorded on several different labels, worked with top musicians both in and out of recording studios.

Met Mrs. Nellie Bond, a fine song writer, while performing on the Squeaking Deacon Show, K.F.O.X. radio. Became good friends and decided to do this album, of which she wrote ten of the songs. They wanted something really different, so they brought in Jimmy Wilson as music coordinator, and after spending hours going over songs it was decided that since no one does any new Christmas songs they would do a Christmas Album, all new songs. Then they found that they needed a little girl-voice to do one of the songs. They had heard little Susan Kay on a variety show aired by K.I.E.V. radio. So she was chosen to be the Guest Artist on this album. Susan does the vocal on the #4 song on side one. I Won't Let You Lick My Candy Bar. We're sure that once you hear Susan you'll want to hear more and I sincerely believe that in the future you will. Then they have a Mystery Guest, he does the #1 song on side two, The Wise Ole Owl. That's what we'll call him, we're certain he'll still be a mystery anytime once you've heard him, but he'll still be the Wise Ole Owl. You'll find in this album, happy songs, kiddie songs and sad songs, many, many hours of hard work went into it's making to try and bring you the very best. We sincerely believe this is the finest Christmas Album ever released to date.

We pass on our heartfelt thanks to those who made it possible.
